

USE CASE TITLE

College Assignment Submission Tracker Scenario:

A college department struggles to track assignment submissions across multiple subjects. Faculty want a dashboard to view submitted, pending, and late assignments.

Key Features:

- Add assignment (title, subject, due date)
- Mark submission status (Submitted / Pending / Late)
- Filter by subject
- Dashboard summary (counts)

Problem Statement

```

Output

The screenshot shows a web browser displaying a file named 'project1.html'. The application is titled 'College Assignment Submission Tracker' with the subtitle 'Track and Manage Student Assignment Submissions Efficiently'.

Add Assignment

Form fields: Assignment Title, Subject, dd-mm-yyyy, Submitted (dropdown), and an Add Assignment button.

Summary Cards:

- Total Assignments: 25
- Submitted: 15
- Pending: 7
- Late: 3

Assignment Records

Assignment Title	Subject	Due Date	Status
Angular Mini Project	Web Technology	20-06-2026	Submitted
Database Report	DBMS	25-06-2026	Pending
Software Testing Assignment	Testing	28-06-2026	Late

© 2026 College Assignment Submission Tracker

Conclusion

The **College Assignment Submission Tracker** is a simple and effective web application that helps faculty members manage and monitor assignment submissions efficiently. It provides features to add assignments, update submission status, filter assignments by subject, and view a dashboard summary of submitted, pending, and late assignments.

By automating the tracking process, the system reduces manual work, improves accuracy, and enables quick decision-making. The project demonstrates the practical use of **HTML, CSS, and JavaScript** in developing an interactive and user-friendly application. In the future, it can be enhanced with features such as student login, database storage, email notifications, and report generation for better assignment management.
